## **Vibrant Health Announces New Clinic Location and Increased Health Care Access for Wyandotte County Through Affiliation with Children’s Mercy**

**KANSAS CITY, KS, April 5, 2021** – Vibrant Health and Children’s Mercy are working in affiliation to meet the health care needs of children and families in Wyandotte County through improved access to high-quality care and increased convenience through the addition of a new clinic location.

Beginning Monday, April 5th, Vibrant Health will open its fourth location, assuming the operation of the Children’s Mercy West Cordell D. Meeks, Jr. Clinic at 4313 State Avenue in Kansas City, KS.

“This expansion is a meaningful step toward our goal of providing access to high-quality, culturally competent health care services in every corner of our community,” said Patrick Sallee, Chief Executive Officer, Vibrant Health. “Our patients will now have a greater choice of providers, services, and locations. This makes getting the health care they need easier than ever.”

This affiliation will result in high-quality integrated primary care for more than 20,000 patients annually, as well as greater access to education resources, outreach, and service offerings, including an on-site pharmacy.

“The health and well-being of children, especially those most vulnerable, is the foundation that guides everything we do,” said Rob Steele, MD, MBA, Executive Vice President, Chief Strategy & Innovation Officer, Children’s Mercy. “Working collaboratively with Vibrant Health, a trusted and proven partner in pediatric care, we are honoring Judge Meeks’ legacy through our aligned missions and extending our reach to even more children and adolescents.”

### **About Vibrant Health**

For more than 30 years, Vibrant Health, formerly known as Turner House Clinic, has provided respectful, culturally competent, high-quality health care for Wyandotte County residents, regardless of socio-economic obstacles. Today, Vibrant Health remains committed to providing equitable, “whole” person care for children and adults. In addition to primary medical, dental, behavioral health and women’s

health services, Vibrant Health provides community outreach services, school-based preventive oral health services and school-based behavioral health services. Visit [Vibrant Health](#) to learn more, and follow them on [Facebook](#) and [LinkedIn](#) to for the latest updates.

**About Children’s Mercy**

Founded in 1897, Children’s Mercy is a leading independent children’s health organization dedicated to holistic care, translational research, educating caregivers and breakthrough innovation to create a world of well-being for all children.
